Section 2: Legislative Compliance

2.1 This policy complies with the statutory requirement laid out in Paragraph 3.66 of the SEND Code of Practice 0 – 25 July 2014. It also meets the requirements of the Statutory Instrument: Special Educational Needs (Information) Regulations (Clause 65).

This guidance is for staff, parents/carers, children and practitioners across education, health and care agencies. It is written with reference to the following further guidance and documents:

- Part 3 of the Children and Families Act 2014 and SEND Code of Practice July 2014
- Equality Act 2010, subsequent updates and DfE advice for schools, February 2013
- Statutory Guidance on Supporting pupils at school with medical conditions, September 2014, updated August 2017
- Ofsted Section 5 Inspection Framework, November 2019
- Teachers Standards 2012
- National Inclusion Statement
- The National Curriculum in England Key Stage 2 Framework Document
- School SEN Information Report Regulations 2014

2.2 Our school has separate policies in place for:

Accessibility, Anti-Bullying, Supporting Pupils with Medical Conditions, Managing Medicines, Behaviour, SEN, Equality, Equal Opportunities, Safeguarding and other appropriate policies which can be found on the school website or paper copies available at school.

Section 3: Our School Profile and School Values

3.1 Our School Profile

Sycamore Hall Preparatory School is a small, independent school for children aged 4-11 that strives for an inclusive ethos at all times and aims to provide high quality learning opportunities for a range of vulnerable pupils.

Under the SEN Code of Practice 2014, a child has a special educational need if they have provision that is, “‘additional to or different from’ that made generally for others of the same age. This means provision goes beyond the differentiated approaches and learning arrangements normally provided as part of high quality, personalised teaching.”

The SEN Code of Practice 2014 also explains that ‘Special educational needs and provision can be considered as falling under four broad areas;

1. Communication and interaction
2. Cognition and learning
3. Social, emotional and mental health difficulties
4. Sensory and/or physical needs

Many children and young people have difficulties that fit clearly into one of these areas; some have needs that span two or more areas; for others the precise nature of their need may not be clear at the outset.’

3.2 Our School Values

At Sycamore Hall Preparatory School we are committed to the academic, personal, social, moral and emotional development of all our pupils. Our school is a safe, caring, stimulating learning environment where the effort and achievement of every single child is celebrated and valued. In working closely with pupils, parents and the wider community our staffing team encourages children to develop into confident and compassionate young people with a strong sense of belonging. All pupils experience a relevant, vibrant and broad curriculum that supports and challenges them to reach their full potential. We aim to nurture motivated learners who have the self-belief and independence to achieve excellence and succeed.

Our School motto is 'May the Tree of Knowledge Flourish'.

- We celebrate our children's strengths, interests and individuality
- We have high expectations and aspirations daily for all our children
- The views, wishes and feelings of our children are central to all we do
- We work positively and proactively with parents/carers and others involved
- All our children are entitled to a broad, balanced and relevant education and to feel secure, safe and valued
- All children are encouraged to participate in the life of our school
- All our teachers are teachers of children with SEND and are responsible for their progress and development

Section 4: Aims and Objectives of our approach to SEND

4.1 Sycamore Hall Preparatory School is committed to ensuring the best possible outcomes for children with SEND and raising the expectations and aspirations of our children. We work in collaboration with other schools and multi-agencies across the Local Authority to ensure consistency of approach.

To summarise as a school we aim to;

- put our values into practice every day
- use our best endeavours to achieve maximum inclusion and success for all our children
- encourage high levels of participation from children, parents and carers
- have a clear focus on steps toward positive life-long outcomes
- explain what we do, when, why and how
- meet our statutory duties

4.2 Our Objectives:

- to work in partnership with families and others involved in the care of children in our school
- to promote children's self-esteem and emotional health and well-being and help them to form and maintain meaningful relationships based on respect for themselves and others
- to sustain a "whole child, whole school" approach to the co-ordination and provision of support for special educational needs
- to ensure that every teacher is a competent teacher of every child, including those with SEND, through well targeted and continuing professional development
- to deploy effective support staff whilst acknowledging that additional intervention and support cannot compensate for a lack of good quality teaching
- to provide differentiated and personalised learning opportunities building on each child's strengths and interests
- to identify needs, particularly of vulnerable and disadvantaged children, at the earliest opportunity, meet their needs, and review their progress regularly
- to make every effort to narrow and close the gap in achievement between vulnerable and disadvantaged children and their peers
- to focus on individual progress across a wide range of outcomes as the main indicator of success
- to develop and support the role of Special Educational Needs Co-ordinator (SENCO) who will work within the SEND Policy and in turn provide support and advice for all staff working with children with SEND
- to map provision across our school to ensure that staffing deployment, resource allocation and choice of intervention is leading to good learning outcomes for all
- to work in cooperative and productive partnership with the Local Authority and other outside agencies, to ensure there is a multi-professional approach to meeting the needs of all vulnerable and disadvantaged learners
- to work always in the best interests of the child alongside our responsibility to ensure the effective and efficient use of public resources.
-

Section 5: Definitions of SEN and of Disability

5.1 SEND Definition

A child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

- has a significantly greater difficulty in learning than the majority of others of the same age, or
- has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions

Special educational provision is educational or training provision that is additional to or different from that made generally for others of the same age. This means provision that goes beyond the differentiated approaches and learning arrangements normally provided as part of high quality, personalised teaching.

Children may be identified as having long term and significant SEND if they are not making adequate progress despite good quality, differentiated Quality First teaching and all relevant and purposeful interventions and strategies being in place.

5.2 Communication and Interaction (C and I)

Children with speech, language and communication needs (SLCN) have difficulty in communicating with others. They have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.

Children with Social Communication Difficulties or Autism Spectrum Condition (ASC), including Asperger's Syndrome and Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

5.3 Cognition and Learning (C and L)

Support for learning difficulties may be required when children learn at a slower pace than their peers, even with the right level of differentiation. Learning difficulties cover a wide range of needs, including:

- moderate learning difficulties (MLD),
- severe learning difficulties (SLD), where support may be needed in all areas of the curriculum and with mobility and communication; and
- multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment;
- Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.

5.4 Social, emotional and mental health difficulties (SEMH)

Children and young people may experience a wide range of social and emotional difficulties which are noticeable in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained. Other children and young people may have disorders such as attention deficit disorder (ADD), attention deficit hyperactive disorder (ADHD) or attachment disorder (AD).

The Department for Education (DfE) has published Guidance on managing pupils' mental health and behaviour difficulties in schools.

<https://www.gov.uk/government/publications/mental-health-and-behaviour-in-schools--2>

5.5 Sensory and/or physical needs

Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time.

Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning, or habilitation support. Children and young people with an MSI have a combination of vision and hearing difficulties.

Some children and young people with a physical disability (PD) require additional on-going support and equipment to access all the opportunities available to their peers.

5.6 Difficulties which may not be related to SEND

Some children in our school may be underachieving, which may be caused by a poor early experience of learning, but will not necessarily have a special educational need. It is our responsibility to spot this quickly and ensure that appropriate interventions are put in place to help these children 'catch up'.

Difficulties related solely to difficulties in English as an additional language are not SEND. We assess all aspects of a child's performance in different areas of learning and development to establish whether lack of progress is due to their poor understanding of English or if it arises from SEND or a disability.

The following concerns may impact on a child's progress and attainment but are not in themselves indicators of SEN:

- Attendance and Punctuality
- Health and Welfare
- Being in receipt of Pupil Premium Grant
- Being a Looked After Child
- Being a child of Serviceman/woman, where a child has attended a number of different schools

5.7 Disability

The definition of disability under the Equality Act 2010 is '...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities'.

This definition provides a relatively low threshold and includes more children than may be expected: 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'.

This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer. Children with such conditions do not necessarily have SEND, but there is a significant overlap between disabled children and those with SEND. Where a disabled child or young person requires special educational provision they will also be covered by the SEND definition.

All children at Sycamore Hall Preparatory School also have access to a wide range of extra-curricular activities.

Section 6: Graduated approach to identifying if a child requires SEND Support

Whole school general Identification and Assessment

All our children's needs are identified and met as early as possible through:

- observation, assessment, target setting and monitoring arrangements (cycle of assessment, plan, do and review)
- listening to and following up parental concerns
- listening to and taking into account the child's views, wishes and feelings
- the analysis of data including baseline assessments, termly assessments and end of Key Stage achievement to track individual children's progress over time
- reviewing and improving teachers' understanding of a wide range of needs and effective strategies to meet those needs
- liaison with schools and other settings on phase and in year transfer
- exchanging information from other services across education, health, care and the voluntary sector
- involving an external agency, and the Educational Psychology Service (EPS) as a minimum, where it is considered that a special educational need may be significant and long term and may require more in-depth and frequently reviewed cycles of assess, plan, do and review

6.2 Examples of Curriculum Access and Provision

Where children are underachieving and/or identified as having high incidence (low need) special educational needs, our school meets these additional needs in a variety of ways. We use a combination of approaches to address targets identified for individual children.

- teachers differentiate learning activities as part of quality first teaching
- preparation for new learning experiences and vocabulary development (pre-teaching)
- targeted additional adult group and, where appropriate, individual support
- bilingual support/access to materials in translation
- differentiation of curriculum resources
- friendship and support groups
- co-ordination and handwriting support groups
- support to participate in the life of the school, such as allocation of a named adult for lunchtimes

6.3 Monitoring and evaluation of progress

- ongoing assessment of progress against targets and expected outcomes
- work sampling and moderation
- scrutiny of planning and level of differentiation and use of classroom resources
- informal feedback from all staff
- child and parental conversations
- pupil progress tracking using assessment data (whole-school processes)
- attendance records and liaison with Education Welfare Officer (EWO) where appropriate
- regular meetings about children's progress between teachers and the Head teacher

Section 7: Request for statutory education, health and care needs assessment

For some children with SEND, despite the school, family and other agencies working together to put in place all relevant and purposeful interventions and support, expected progress is not made. In these circumstances, external agencies, particularly an Educational Psychologist, will already have been involved in discussing, assessing the child and/or contributing to their provision.

For some children additional provision and support will need to be deployed for the longer term in order to meet their needs and planned outcomes effectively. A multi-agency meeting will discuss if it is appropriate to submit a request to the Local Authority to consider whether a statutory assessment of education, health and care needs is necessary. Advice will be sought from the LA's SEND Team before a request is submitted.

Section 8: Education Health and Care Plan

Children with an Education Health and Care Plan will have access to all arrangements for children in receipt of SEND Support and, in addition to this, will have an Annual Review of their plan. Supplementary or early reviews may be called if required.

Our review procedures fully comply with those recommended in Section 6.56 and 9.173-6 of the Special Educational Needs Code of Practice January 2015.

Section 9: Management of SEND within our school

9.1 General

The Head teacher has delegated the responsibility for the ongoing implementation of this SEND Policy to our Special Educational Needs Coordinator (SENCO). The SENCO is responsible for reporting regularly to the Head teacher with responsibility for SEND on the ongoing effectiveness of this policy.

All staff in school have a responsibility for maximising the achievement and opportunity of vulnerable and disadvantaged learners. All staffing appointments to support any vulnerable or disadvantaged child will be carried out in accordance with equal opportunities legislation, employment law, safer recruitment policy and best practice. All vacancies will be competitively advertised and recruited to.

Staff new to the school will have induction from the SENCO on the School's SEND policies and procedures.

9.2 Head teacher

The Head teacher is responsible for monitoring and evaluating the progress of all children and for making strategic decisions which will maximise their opportunity to learn.

9.3 Special Educational Needs Coordinator (SENCO)

Our SENCO will oversee the day-to-day operation of this policy and will:

- be a qualified teacher working at our school.
- strategically support the quality of teaching, evaluate the quality of support and contribute to school improvement
- maintain and analyse our whole-school provision map for vulnerable and disadvantaged children
- co-ordinate provision for children with SEN
- liaise with and advise teachers and other classroom/targeted support staff
- manage the records for all children with SEN
- liaise with parents of children with SEN, in conjunction with class teachers
- contribute to the in-service training of staff as part of the school's improvement plan and annual schedule of continuous professional development
- review and revise learning and wider outcomes on SSPs
- co-ordinate multi agency meetings and statutory Annual Reviews for children with an Education Health and Care Plan or comply with requests to participate in meetings led by other lead practitioners
- ensure effective and timely transition arrangements for children moving into and out of our school
- evaluate regularly the impact and effectiveness of all additional interventions for children with SEND
- follow Local Authority guidance and procedures when it is considered that a child with significant and long term SEND may require significant support through statutory processes
-

9.4 Classroom and subject teachers

Teachers are responsible for the four stages (assess, plan, do, review) of action with the support and guidance of the SENCO and specialist staff.

Our teachers will:

- focus on outcomes for every child and the outcome wanted from any SEND support;
- be responsible for meeting special educational needs under the guidance of the SENCO and Head teacher;
- have high aspirations for every child setting clear progress targets;
- involve parents and the child in planning and reviewing progress: sharing information, seeking their views and providing regular updates on progress.

Section 10: Partnership with Parents/Carers

Our school aims to work in partnership with parents and carers. We do so by:

- working effectively with all other agencies supporting children and their parents;
- giving parents and carers opportunities to play an active and valued role in their child's education;
- making parents and carers feel welcome;
- encouraging parents and carers to inform school of any difficulties they feel their child may be having or other needs their child may have which need addressing;
- instilling confidence that the school will listen and act appropriately;
- focusing on the child's strengths as well as areas of additional need;
- allowing parents and carers opportunities to discuss ways in which they and the school can help their child;
- agreeing targets for all children, in particular, those not making expected progress and, for some children identified as having SEND, involving parents in the drawing-up and monitoring of progress against these targets;
- keeping parents and carers informed and giving support during assessment and any related decision-making process;
- making parents and carers aware of sources of information, advice and support;
- providing all information in an accessible way for parents with English as an Additional Language;

Parents are consulted on the accessibility of the school and our accessibility plan outlines the outcomes we are aiming to improve.

Section 11: Involvement of Children

Children have the right to be involved in making decisions and exercising choice. In most lessons, all children are involved in monitoring and reviewing their individual progress through the use of layered targets. We endeavour to involve all children fully by encouraging them to:

- share their views about their education and learning;
- identify their own needs and learn about learning;
- share in individual target setting across the curriculum so that they know what their targets are and why they have them;
- self-review their progress and set new targets;
- monitor their success at achieving the targets on their SEN Support Plan;

Section 12: Supporting pupils at school with medical conditions

Some children in our school have medical conditions that require care and support to enable full access to education, including school visits and physical education. Some children with medical conditions may be disabled and where this is the case the school will comply with its duties under the Equality Act 2010.

Some may also have special educational needs (SEN) and may have an EHCP which brings together health and social care needs, as well as their special educational provision.

Children with medical needs will have a Health Care Plan which identifies how their additional medical needs are met in school. These plans are reviewed on an annual basis in consultation with parents. The school has a policy for 'Supporting Children with Medical Conditions', which can be found on the school website.

Section 13: Effective Transition

For all children, we will ensure early and timely planning for transfer into our school, within our school year groups and onto the next phase of education.

During the year in which children are due to change school, transition meetings and class transition days for all children are held and arrangements discussed. For children with SEND this may include additional familiarisation visits, buddy bonding activities, parental/carer visits to our school or other reasonable adjustments in addition to the usual arrangements for all children.

When children are due to leave our school, they and their parents will be encouraged to consider all options for the next phase of education. We will involve outside agencies, as appropriate, to ensure information is impartial, comprehensive but easily accessible and understandable. Accompanied visits to other providers may be arranged as appropriate. We will discuss transition needs of all children with Education Health and Care Plans at their statutory Annual Reviews. A transition plan will be produced and shared with the family. For children with an Education Health and Care Plan in transition years, the SENCO will also attend any Annual Reviews for the children at their feeder school if invited.

Section 14: Admission Arrangements

No child will be refused admission to school on the basis of his or her special educational need, ethnicity or language need. In line with the Equalities Act 2010, we do not discriminate against disabled children providing we can fully meet their needs.

Section 15: Accessibility and Exam Access arrangements

The statutory examinations our children take at the end of Key Stage 2 are designed to be accessible to the majority of pupils in the specified amount of time without any modification. In the case of children with SEND, they may be eligible for access arrangements. However, these arrangements must be usual classroom practice for the child.

For some children with slow writing speed or fine motor difficulties it may be appropriate to download the appropriate form for using an amanuensis or making a transcript.

For pupils with visual impairment it may be necessary to order modified or large print test papers.

A very small minority of pupils may qualify for 25% additional time in the tests. Additional time is only appropriate for pupils that are affected by a condition that means they cannot demonstrate their true potential in the set amount of time.

Section 16: Storage of records

Documents relating to pupils on the SEND register will be stored in Pupil Files in a locked cabinet. SEND records will be passed on to a child's next setting when he or she leaves Sycamore Hall Preparatory School. The school has a Confidentiality Policy which applies to all written pupil records.

Section 17: Complaints

If there are any complaints relating to the provision for children with SEND these will be dealt with in the first instance by the class teacher and SENCO, then, if unresolved, by the Head teacher.
